

# 2025 Lidcombe Program Workshops

In 2025 we are offering two Lidcombe Program workshops (one in June and one in October).

This workshop (delivered via four online sessions) is designed for speech language therapists who are interested in using the Lidcombe Program. The workshop will include short lectures, small and large group activities, viewing and discussion of clinic visit videos, and case discussions. The workshops will be facilitated by Dr Anna Hearne.

“Amazing PD! I was really impressed with the structure of it. I enjoyed the opportunity for discussion and learning with others. Was good to go over the problem solving aspects as that is what I feel we need the most, it is when those “curly” cases come up that I get a bit stumped so was super helpful to do this workshop. Will recommend it to other SLTs!”

“Great course. It was very helpful to hear how Anna would explain things to families, analogies, have the video demonstrations, do problem solving, role plays, and get information about the most up to date stuttering research and what is up and coming. I really appreciated the 10-minute breaks every hour or so, given that it was an online course.”

“Brilliant - just the encouragement and clarification I needed to be more effective in supporting children who stutter and their whānau. Thanks!”
